Re: Triton PCS License Company, L.L.C.
Notification of E911 Technology Change for its
GSM Network
CC Docket No. 94-102

Dear Ms. Dortch:

Pursuant to the Commission's Public Notice released September 14, 2000,¹ Triton PCS License Company, L.L.C. ("Triton"), by its attorneys, hereby notifies the Commission of its decision to change the Phase II E911 technology it will use for its GSM network from the E-OTD handset-based technology it reported to the Commission previously² to a network-based technology using the Grayson TDOA/AOA equipment Triton is using to provide E911 service for its TDMA network. This change does not affect Triton's plans for its existing TDMA network. Further details regarding this change will be provided in Triton's next quarterly report on its Phase II E911 deployment, which is due November 1.³
